by the fraids. February vis. 1884.

the charged for taking it up? A. For half greding, taking out of wind, laying, &c., amounts for college the product of the college of the product of the college of the product of the pro

Mr. Howart. If the quality was less up to price.

The Chairman. When did you discover this flagging was so inferior in quality? A. It is not inferior; it is common.

Q. When did you notice that?
The Witness. Which?
The Ohairman. Anywhers.
The Witness. Well—
The Chairman, As it was being laid down? A. You al.

Jonathan Taylor sworn and examined: By Mr. Wilson: I reside in New York, and am of the firm of Taylor & Filbert. That firm has been dissolved. It was dissolved on the 22d of March.
Q. For what purpose was that firm organized?
A. It was general contracting and street paving.
Q. In reference to what—any particular place?
A. No. sir.
Q. How long had that firm been in existence?
Water the language streeth in Contracting 1871.

is yet the price list?

if. Class. Yes, sir. [Handing a paper to Mr. Ison.]

If. Wilson. Look at this, and pick out the kind alonging Mr. Evans has put down around this verament property, and then tell me the price which it can be bought.

It alone. The price of iarge flag. Which we discussing "either one or both ways, is subtot to special contract." Mr. Evans has the ginal vouchers, and he proposes to put them in the consideration of this committee, as to the gount paid by him.

If. Wilson. I bowernor Shepherd, what is size of this flagging that has been put down Mr. Evans around Government property?

Evans, you are more familiar with the matter in lam. Will you please answer Mr. Wilson?

If. Wilson. I do not want Mr. Evans to aner; I want you to answer the question. What the sizes the size of the size of the size of the flagging that has been put down Mr. Evans around Government property?

Evans, you are more familiar with the matter in lam. Will you please answer Mr. Wilson?

If. Wilson. I do not want Mr. Evans to aner; I want you to answer the question. What the sizes the sizes matters than I and doubtless could wer you more satisfactorily.

If. Wilson. I prefer to have you answer.

Forcemor Shepherd. Very well, sir; I will do Fice and six teet is what Mr. Evans states.

If. Wilson. I see on this price-list it is inverted.

If. Wilson. I see on this price-list it is inverted to the size of the could be seen the price of the seen the property of the purpose of dissolving, but them; they were kept there some time, and then submitted to Jan. THE NATIONAL REPUBLICAN, MONDAY 2

THE NATIONAL REPUBLICAN REPUBLICAN REPUBLICAN REPUB

Crete bottom under it.

Q. Is it not the fact that there is a considerable difference in the cost of laying these different kinds of wood pavements? A. Yes, sir.

Q. Do you know the price that was paid for laying its round block pavement in this city by the Board of Public Works? A. I do not.

Q. What patent did you lay of wood pavement?

A. I laid the DeGolyer-No. I it is called—and the Taylor & Filbert. The Taylor & Filbert is a wedge-shaped block.

Q. Is there a difference in the bost of laying those two pavements? A. Not much.

Q. What other pavements have been laid in this city? A. The Stowe pavement than yours? A. Yes, sir; more expensive—probably ten or fifteen cents a yard. Thou there is the Ballard.

Q. How is that compared with yours? A. That I grant a series of the series of the Ballard.

Q. How is that compared with yours? A. That I have a series of the series

see you have not emarged a with pleasure. So one around P-street circle?

Forement Shepherd. I will do so with pleasure. Writing the price of the price of the price. Writing the price of the price of the price. Writing the price of the pri

mittee that the cost of wood pavements laid by you here was from \$2.80 to \$2.85 per yard? A. Yes sir.

Q. That is the net cost to you for the pavements laid? A. Yes, sir. In other words, we made about 16 per cent on our contract.

By Mr. Wilson: Q. Have you been paid? A. We have had, I think, about \$210,000 or \$215,000 in money, and \$270,000 or \$280,000, probably, in bonds, the balance in auditor's certificates. I should think about fifteen or twenty thousand is wet coming from the board.

bonds, the balance in auditor's cortificates. I should think about fifteen or twenty thousand is yet coming from the board.

Q. Have you any work yet unmeasured? A. No, sir, the work is all measured up.

Q. You have not received all your certificates yet.

The Witness. No, sir, I want to state one thing white I am here. In reading over Mr. Cluss' testimony, the other day, about Seventh street, and my partner running away, or having gone to parts unknown—I want to say that we have not yet fall pay on that street at all. The sidewalks are finished. It was late when we put that work down, and we got it measured up and they agreed to pay for what work was done. We put it down list less fall. But the street was all torn up and plowed up, and the water-pipes all lowered, and the street was all torn up and plowed up, and the water-pipes all lowered, and the street was all torn up and pit down. And we got it down, and it went to work and put it down. When we got our estimate on it they paid us for paving, and a part for the grading, I think. This other man has done the grading, I think. This other man has done the grading, which all went under our name. We however, had nothing to do with the grading.

Q. Mr. Walsh did the grading: A. Yes, sir, but the street was in a bad condition for the reason stated. The pavement was well put down. If went to work and dug out there mud and shush, and hauled in gravel, which Mr. Willard directed me to do. I paid 40 cents for the gravel and filling up those places, and then rolled it down. Mr. Barney, he scratched it all off. The other measurement I want to speak of—on N street. In all my measurements on Sixteenth street I was six hundred short in my measurement of the work actually done. On Massachusetts avenue and Rhode Island avenue and other piaces, our measurement.

Barney, he scratched it all off. The other measurement I want to speak of—on N street. In all my measurements on Sixteenth street I was six hundred short in my measurement of the work actually done. On Massachusetts avenue and Rhode Island avenue and other places, our measurements were cut down by Mr. Oluss and Mr. Barney, they making their estimate from the books in the office, and not actual measurement. My measurements have all been short instead of over, as claimed by Mr. Cluss. The committee can go and measurement in the office.

By Governor Shepherd' Q. State to the sommittee how the prices paid by the Board of Public Works are compared with those paid in other cities. A. A great deal less than in New York; in New York they pay \$4.00 and \$5 ayard.

Q. Have you done any work at lower rates than at the prices you got here! A. Not East; out West, where the price of limber is considerably less, I have. The work I have done here I have done for a great deal less price than I get in New York, Philadelphis, Elitabeth and Newark.

By Mr. Onristy Q. What do you know about the cost of wood paysments laid for the last two years.

Q. Is it not true, in fact, that wood payements have been wholly abandored in New York A. No, sir, not abandoned.

Q. Is it not true, in fact, that wood payements in New York for the last two years.

Q. Is it not true, ilkewise, that they are now supplanting the last of their wood payements with stone payement. A. Not tony knowledge.

Q. Is it not true, likewise, that they are now supplanting the last of their wood payements with stone payement. A. They are taking up some of the wood payements there that have been done six or seven years, and are worn out.

Q. And replacing shem with stoner A. Relaying them with Belgian.

By Gov. Shepherd. Q. What is your opinion as to the adaptability of wood payement for a city ilke Washington, with the travel we have here?

A. I thuk that wood and coursete payements are better than any other kind of payement for such a city as Washington.
